

# COLLECTION FOR UKRAINE

— Let's work together for victims of war

Since the war in Ukraine started we have supported projects that matchmakes Ukrainian talents to Swedish companies.

But the war is not over and we still wish to do more.

Ideon Science Park and Wihlborgs Fastigheter has partnered up with Operation Aid to start a collection for Ukraine.

We urge companies to donate either products that you already have that could help, or buy items to donate.

## PRACTICAL INFORMATION

Wihlborgs Fastigheter has granted a storage facility for this initiative where you can come and give your donations.

See below information for opening hours on when you can donate.

A list of preferred items for donations is listed on the next pages.

Location: Beta 1, Scheelevägen 17, Lund. Entrance from the parkinglot

Opening hours: Monday - Thursday, 11.00 - 14.00
